

ANTHRAX ON VALLEY ISLAND SPREADS TO HALF DOZEN PLACES

Locations Are Widely Separated and No Cattle Have Passed From One To Another

VALUABLE ANIMALS ARE KILLED BY EPIDEMIC

Twenty-four Deaths Thus Far and Horses in Isolated Place Included Among Victims

WAILUKU, June 25.—There are six distinct foci of anthrax on this island now while a week ago there was but one focus. These foci are widely scattered. There have been twenty-four deaths. These include seven head of high grade Polled Angus cattle of the Grove Ranch, a herd of 450 and three brood mares with foal of the Hawaiian Commercial Company's herd of 85 animals.

Dr. Norgaard, territorial veterinarian, and Dr. Fitzgerald, deputy veterinarian for Maui, have been working almost night and day immunizing stock, and following up clues of new outbreaks. The believe they have the disease fairly well in hand, but decline to even guess where the next outbreak will occur.

The veterinarians have no hesitancy in declaring that all of the food on Maui has been deliberately planted by some person or persons. It is just two weeks since the first deaths occurred. Following the outbreak in the Apia pasture of the Haleakala ranch, below Makawao, two weeks ago, there died in the Haleakala ranch house paddock last Friday night, and a calf on the place of Miss Rose Crook the same night, both of which cases were pronounced anthrax. Both of these places are several miles separated from each other and from the original scene of outbreak.

On last Saturday the disease made its appearance on the Waialeale pasture of the Maui Agricultural Company's Grove Ranch, in a herd of 450 pure-bred Polled Angus cattle. The disease may possibly have spread naturally to this place from the Crook place which adjoins it. Seven cattle of this herd have died to date. The rest have all been immunized.

On Saturday also appeared a case of anthrax in the butcher paddock of the Hawaiian Commercial & Sugar Company, near Camp 7, which is in the Kihui section of the plantation, and many miles from the scene of the other outbreaks. Five head of steers have died here to date.

The first of this week the disease was discovered in what is known as the Camp 9, Kihui pasture, of the Hawaiian Commercial & Sugar Company, in a herd of 55 brood Percheron mares and three of these fine animals have died.

The roads leading to all of these infected sections have been closed to any animals, and armed guards are posted to see that the quarantine notices are observed.

Notices have been posted warning owners of live stock to keep them off the public roads. Dogs are to be kept chained up, and any found at large in any of the infected areas are being shot without question by the guards.

Public Meeting Held
Probably 150 persons attended the meeting held at the Paila Community House, on Monday afternoon, when Dr. Norgaard gave a talk on anthrax which was of much interest and probably went far to allay any panicky ideas as to the danger to human beings. The importance of reporting promptly any dead animal found, was impressed upon the gathering.

THREE MAUI BANKS WILL AMALGAMATE

New Corporation Gets Charter As National Bank and Is Known As Bank of Maui

Three banks on Maui are about to amalgamate into a single banking company which is chartered as a national bank. These are the First National Bank of Wailuku, the First National Bank of Paia and the Lahaina National Bank and the new banking corporation is to be known as the Bank of Maui, Ltd.

Notices of dissolution of the three Maui banks were recently published in the Maui News but did not give any information as to the occasion for the dissolution. It is learned, however, that it is for the purpose of amalgamation and that the headquarters of the new corporation is to be at Wailuku. The capital of these three banks was \$35,000 for the Wailuku bank and \$25,000 each for the other two.

Application was made by the three banks to the controller of currency the latter part of May for permission to dissolve and form the new company and the permission was given and the new charter for the proposed new company was granted.

C. D. Luffin was named as liquidating agent.

Scouts Train So As To Help In Great War

More Than Hundred At California Camp, Which Will Be Duplicated Elsewhere

MILL VALLEY, Cal., June 20.—More than a hundred Boy Scouts are undergoing a four weeks' training course in the woods near here. It is only one of hundreds of similar camps which will be in operation all over the country. According to the camp masters, the men who are in charge of the youngsters, never in the history of the American Boy Scout organization has there been the intense interest and eagerness to learn that pervades it at the present time. The entrance of the United States into the great war and the conspicuous part which the youngsters have been told they can play in the grim drama has crowded out all thoughts of the fun that might be gotten out of camp life. They are all in deadly earnest.

"Our group would go into this business of war with half of the seriousness and order of these youngsters there could be no possible complaint that everybody wasn't doing his bit," said one of the men in charge. "I wish every man could see for himself the painstaking efforts the boys make to become proficient in what they are expected to do. Every boy has taken literally that he is responsible for the well-being of a soldier at the front."

The work is hard and every minute of the day is taken up. After roll-call and flag-raising come the calisthenic exercises. Following breakfast are the drills, instruction in signalling and first aid. The afternoons are spent in scouting activities, swimming, hiking and other exercises which harden and strengthen the youngsters. After supper talks are held about the camp fire. When taps sound at nine-thirty o'clock the boys are more than ready to tuck into their cots.

Two men, watching the boys at work, were discussing them and the organization. One maintained that it was a fine thing, not alone for the healthful recreation it afforded boys but because of its educational advantages. The other man agreed that it might be lots of fun but was unconvinced as to its more serious side. The first man said nothing but, turning to one of the boys, asked:

"Got your compass with you son?"
"Yes, sir," replied the boy.
"What will you do if you get lost?"
"Find my north by looking for the moss that grows on that side of the tree," came the quick answer.

CARDEN HEADS PUBLIC UTILITIES COMMISSION

Resigns Deputy City Attorneyship As of July 1

William T. Carden was appointed yesterday chairman of the public utilities commission, succeeding Charles R. Forbes, whose resignation took effect yesterday. To succeed Carden as a member of the board Will P. Thomas, president of the Thomas Pineapple Company, was appointed yesterday. The board, which stands now, consists of Will T. Carden, chairman; Alexis J. Gignoux, and Will P. Thomas, members.

Carden will be able to continue on the public utilities board after July 1 as yesterday he resigned as second deputy city attorney, this resignation to take effect on July 1. City Attorney Brown accepted Carden's resignation with regrets.

The last legislature passed a law, over the Governor's veto, prohibiting the appointment of any government officials on the public utilities commission after June 30 this year. Forbes' resignation eliminated his being forced to quit the commission at the end of this month. But it was different with Carden, who had to choose between membership on the board and the city attorney deputyship. He chose the former and in addition to his duties as chairman of the commission will after June 30 return to the private practice of law.

Things were not all smiles between Forbes and Carden the last few months on the public utilities commission and the feeling between the two men got so that they would hardly speak to each other except on business of the commission. It was said long ago that Carden aspired to head the commission. This was made possible through his appointment as chairman.

Attorney Charles S. Davis, son of Judge George A. Davis, will succeed Carden on July 1 as second deputy in the office of the city attorney, it was announced yesterday.

NOMINATIONS MADE

The following nominations of non-commission officers of the Oahu garrison who have been named provisional second lieutenants in the Army have been received here: S. O. M. McDoyle, U. S. Cavalry, Second Regiment Infantry; Sgt. William H. Ballentine, A. Company, First Second Infantry, formerly of A. Company, Second Infantry; Cpl. A. C. Boren, Medical Department at Fort Shafter Hospital; Cpl. A. B. Cohen, Third Engineers, Cpl. William B. Smith, Third Engineers.

ECONOMY IN THE END.

It costs but a small amount to keep Chamberlain's Colic, Cholera and Diarrhoea Remedy always in your medicine chest, and it is economy in the end. It always cures and cures quickly. For sale by all Dealers, Benson, Smith & Co., Agents for Hawaii.

HILO'S POPULATION SHOWS BIG GROWTH

Board of Health Census Shows Gain of Four Thousand Since Enumeration of 1910

(Mail Special to The Advertiser)

HILO, June 25.—Acting upon instructions from the board of health, Superintendent Bowman, of the local board of health department, with his force of efficient workers has just completed a most comprehensive and accurate census of the city of Hilo.

Not the least remarkable feature in connection with this work is the fact that, according to this census, there has been a gain of over four thousand in the population of the city since the last census was taken, which was in 1910.

It may be said that the adjoining plantations have had much to do with this condition of affairs, but when it is considered that the figures represent only those residing in the city limit as prescribed by law, and that the same plantations were included in the former and last census, and that there is every reason to feel sure that no necessity has arisen since that time which would cause an increase in laborers for these plantations, it is a striking piece of evidence that Hilo is on the map as one of the most progressive cities in the bounds of the United States.

Another feature of the census taken by Superintendent Bowman is that which shows a great majority of males over the females. Especially in this case with the Chinese, whose figures are given as almost double in proportion to the females. The same can be said regarding the Japanese, while the best average is shown among the Hawaiian race, the difference in favor of the men being not quite fifty. The Portuguese also average up well, as does also the Americans, British and Germans. There are precisely as many Chinese in Hilo as Americans.

The members of the board of health found that the work entailed many difficulties which they had not bargained for but that they had worked with a determination to accomplish their end and that with this in view the understanding was brought to a highly successful termination. The new census is valuable as an eye-opener to those who can see nothing in the progressiveness of their city. Hilo is growing and the fact had as well look in right now as later on. Better at present, since time will come when those who are asleep will be awakened to find the bacon is gone.

The table, according to the late census, is taken from the final count and is as follows:

Nationalities	Males	Females	Total
Americans	324	299	623
British	82	48	130
Chinese	450	203	653
Filipinos	372	125	497
German	44	30	74
Hawaiian	555	503	1058
Japanese	2585	1905	4500
Korean	66	21	87
Kauai-Haw.	135	125	260
Caucasian-Haw.	250	213	463
Portuguese	1069	916	1985
Porto Rican	82	36	118
Russian	10	20	30
Spanish	40	33	73
Other Nat.	45	35	80
	9989	4425	14414

DOCTOR LUMHOLTZ ON HIS WAY TO MAINLAND

Famous Explorer Back From Trip Through Uncharted Borneo

Recently a guest at the Moana Hotel, Dr. Carl Lumholtz one of the best known of present day explorers, is now en route to the Coast after recuperating in Hawaii from three and a half years spent in Borneo. Doctor Lumholtz during that time never left this island, penetrating into its recesses and bringing back a wealth of scientific material about the place, to which elings much of the glamour, mystery and romance which was once the heritage of all Malaysia.

He made an attempt before leaving Malaysia to organize an expedition to New Guinea, but was refused permission by the authorities during war time as the dangers were great and they did not care to be responsible for him with so many other things to occupy their attention. Beyond the mountain ranges of New Guinea lies a land supposed to be uninhabited which is absolutely unknown to the natives of the coast themselves not having the faintest idea of what lies beyond the tremendous mountains and jungles which cut off the interior.

JONES IS DISCHARGED BY JESS WILLARD BUT SAYS HE WILL HANG ON

(Associated Press By U. S. Naval Communication Service)

BUFFALO, June 25.—Tom Jones, manager of Jess Willard, heavyweight champion of the world and of Jack Carley, another heavyweight, has been discharged by Willard. He was notified Thursday, he announced.

Jones asserted that he had a contract to run until September and that in the meantime he would accept Hinkle's offer of \$50,000 for Willard to fight the winner of the Fulton-Weinert bout and also would accept for Willard an offer of \$20,000 for a fight with Carl Morris. Willard wished to get rid of him before signing up for the fall fight, Jones said.

HILO'S FOURTH TO BE REAL AFFAIR

Plans About Complete For Biggest Celebration of the Day In the Crescent City

HILO, June 25.—An exceedingly busy meeting of the Fourth of July Committee was held last evening in the offices of Theo. H. Davies and Company, with Chairman Giffard presiding and all members present, each of whom submitted his estimate of the cost of the particular division of activity he was in charge of.

Treasurer H. B. Mariner reported that the funds for the celebration, which will be the most ambitious ever attempted by Hilo, are now sufficient to cover the estimated cost of approximately \$3500, including the expense for the new bleachers and grandstands for races and sports, designed to seat 2000 persons.

Real Progress Made
These bleachers will be erected on Kihio wharf under cover, so that in case of rain there will be protection for the spectators and a fine view of the regatta course. A change of fifty cents will be made for reserved seats and of twenty-five cents for the other seats, while a general admission of two cents will be made for the pier, except for ticket holders and children.

For the splendid program of sports in Moohan Park in the afternoon the bleachers will be rushed by train from the wharf to the park and erected on each side of the grandstand immediately after the races. These sports are under the direction of Chairman J. Knox Bodei and promise to become more than ever before, an important feature of the Hilo Fourth of July celebration. Visitors from Honolulu will be invited to compete and gold, silver and bronze medals for each event are now on exhibition in the windows of Kennedy's jewelry store.

Ready For Visitors
Capt. M. A. Nicoll, of the Hilo Yacht Club, reported progress by the crews of the club and stated that every arrangement had now been made for the welcome and accommodation of the visiting crews who will arrive on Tuesday morning and have a chance to recover from the effects of the trip from Honolulu before the races. The expenses of the trip, he stated, would be slightly larger than was at first estimated, but the later-land was doing everything possible to provide comfortably for the visitors.

One of the special events of the day will be the baseball game between the visiting team of the Twenty-fifth Infantry, Company B, and the leading team in the Hilo Baseball League, so close, however, are the latter teams that it may be necessary to draw in case a tie follows the games next Sunday.

Chairman Arakawa, of the fireworks committee, will spend \$650 for the great lantern parade of 1200 men for the fireworks, which will be set off from a barge anchored in the bay. There will be three bands in the line of the parade and it promises to be one of the most attractive parades of the kind ever seen in the Territory.

Chairman Forrest reported that the payment of decorated floats and automobiles will be well worth seeing and outlined three patriotic floats representing incidents in American history, which will be seen.

Judge C. K. Quinn was authorized to appoint the judges for the pageant and the literary exercises, at which Judge J. Wesley Thompson will be the orator of the day. There will also be a massed chorus of school children.

Chairman J. C. Manikoff announced that there was a dearth of butting, but that he had a thousand yards for the armory for the grand ball to be in the evening. Also he would decorate the street corners and he expects all the stores in the city to decorate as much as possible.

Bert Webster is in charge of the bleachers and the concessions on Kihio wharf.

HYADES HERE WITH CAPACITY CARGO

Arriving on time yesterday morning the Matsuo freight steamer Hyades is now in port from San Francisco discharging a cargo totaling 1831 tons for local consignees. She has large consignments also for Port Allen, Kapaeha and Kahului. It is planned to despatch her on her island tour next Tuesday evening, touching in order Port Allen, Kapaeha and Kahului, and eventually completing her sugar cargo out at Hilo before leaving for San Francisco.

Barracks Take Ground Where Exposition Was

Imposing State and National Buildings of Panama-Pacific Fair Are Razed

(By The Associated Press)

SAN FRANCISCO, June 13.—Visitors to the Panama-Pacific International Exposition held here during 1915 who remember many beautiful state buildings as well as the handsome structures which housed the exhibits of the various foreign nations never would recognize during these war times that ground which stretches from the beautiful Palace of Fine Arts, with its lawn, to the race track and athletic stadium. Four imposing structures of the New York, Pennsylvania, New Jersey, Illinois and other state buildings, as well as the Canada, Guatemala, Philippine, Norway, France and other national pavilions, have been razed, and stretching from end to end of the flat, from the base of the Presidio military reservation to the water's edge, are long lines of wooden barracks designed to house 6000 or more men who will be trained and organized into regiments to be sent to the fighting front as fast as they can be made ready.

During the past two weeks, 216 of these long, low structures have been built. From the overlooking eminence they look like long, brown furrows stretching across a plowed field. Six hundred carpenters have been at work night and day, and 2,500,000 feet of lumber have been used in the construction. As rapidly as they have been completed, they have been wired and the plumbing put in.

Of necessity the barracks have been made of rough lumber. They are unplastered and unceiled, but the contractors say they will keep the men warm. Each building has running water.

There are thirty-six main barracks twenty feet wide and 112 feet long, thirty-nine barracks twenty feet wide and 110 feet long, three barracks by ninety-eight feet, three barracks by sixty-three feet and three barracks by seventy-seven feet.

These barracks are arranged in pairs, so each pair will house a company of approximately 150 men. Near the barracks are sixty lavatories, each fourteen feet by thirteen feet. The mess houses, forty-five in number, range in size from twenty feet by six feet to twenty feet by six feet.

LABOR SHORTAGE IS BIG FOOD PROBLEM

Good Land Uncultivated On Hawaii Because There's None To Work

Shortage of labor probably is the greatest obstacle preventing the use of a large acreage of arable land on the island of Hawaii, for growing cereal and vegetable crops. The area is on near the Lyman Estate, in Kapaeha, Puna district, and at present is not under cultivation, though in former years was used for cane.

W. W. G. Moir, the food commission's agent for East Hawaii, visited Henry Lyman early this week and inspected the land. He reports that it seems to be good soil, the abandonment of sugar cane culture being due to lack of both labor and transportation. There is a railway station nearby, however, and truck gardeners could use the area to be planted to corn and Windsor beans.

All laborers on Waikane plantation have gardens, Moir reports, and are urged and encouraged by prizes which the plantation offers for the best gardens. There are prizes not only for the best gardens on the plantation, but for the best in each camp. In addition to these, the company has caused an area to be planted to corn and Windsor beans.

The Hilo board of trade is setting a noteworthy example for the citizens of the Big Island, and for communities on all the islands, by preparing a big demonstration garden in the children's playgrounds at Lincoln Park. The sum of \$1500 has been set aside for this purpose. In it will be planted a wide variety of edible things, and an effort will be made to show the people what are the best crops for their home gardens.

SPORTS

WHITE SOX BEAT CLEVELAND AGAIN IN THE AMERICAN

Detroit Continues Great Spurt By Downing Browns and Takes Fourth Place

NATIONAL LEAGUE		
Team	Won	Lost
Philadelphia	34	22
New York	33	23
Chicago	30	26
St. Louis	29	27
Cincinnati	28	28
Boston	27	29
Pittsburgh	26	30
AMERICAN LEAGUE		
Team	Won	Lost
Chicago	30	20
Boston	28	22
Detroit	27	23
Cleveland	26	24
St. Louis	25	25
Washington	21	29
Philadelphia	19	31

The chief interest in the major league games yesterday centers upon the victory of Chicago over Cleveland in the American League. Generally speaking, the other games meant little. Chicago won another close one from Cleveland, 1 to 0, after winning in fifteen innings Saturday, 2 to 1. The White Sox are playing splendid baseball and really appear to be the class of the American League, not excepting the Boston Red Sox.

In the other American League game Detroit continued its great spurt by defeating St. Louis again, 4 to 2. The Tigers at last are above .500, standing at .509, and they look good for a strident berth.

Chicago defeated the Pittsburgh Nationals at Chicago, 3 to 1, but the Cubs are so far behind the Giants and Phillies, who did not play, that the victory means little. St. Louis and Cincinnati split a double-header.

YESTERDAY'S RESULTS
National League
At Chicago—Chicago 2, Pittsburgh 1.
At St. Louis—St. Louis 4, Cincinnati 3.
At Cincinnati 15, St. Louis 4.
American League
At Detroit—Detroit 4, St. Louis 2.
At Chicago—Chicago 1, Cleveland 0.

SEALS TRIM BEES IN COAST LEAGUE

San Francisco's march through the Pacific Coast League is almost monotonous. The Seals defeated Salt Lake at Salt Lake yesterday, 5 to 0, while the other teams were splitting double-headers, and so they gained on every team in the league. The Seals have a twenty-two point lead over Salt Lake, or six full games.

Yesterday's Results
At Oakland—Portland 11, Oakland 8; Oakland 6, Portland 4.
At Salt Lake—San Francisco 5, Salt Lake 0.
At Los Angeles—Los Angeles 5, Vernon 4; Vernon 4, Los Angeles 2.

Schmidt and Grieg Win On the Links

Heinie Schmidt, former Western amateur gold champion, and Jimmie Grieg defeated Alex Bell and Harold Giffard over thirty-six holes on the Country Club links yesterday, 3 to 2. Schmidt had some very long putts in the latter part, two on the fourteenth and fifteenth holes, almost clinching the match. Grieg was good going out in the morning, making a thirty-five.

Bell and Giffard were 1 down in the morning. Bell missed much in the morning, losing four short putts, which were costly.
Next Sunday the four will go to Haleiwa to play. Eighteen holes will be played at Schofield and eighteen at Haleiwa.

CHILLY WILL MANAGE ALL-STAR STUDENTS

Henry Chillingworth will manage the All-Star team of the Intercollegiate League on its Fourth of July trip to Kauai. J. E. Higgins will go with him, probably to umpire. The two will return in time for the July 8 game between the Twenty-fifth and All-Stars. Giffard of the Twenty-fifth asserted that he could get a team from his regiment, some of the regular regimental team playing, that could defeat any other team that could be got together, and Higgins is at work gathering a team. He said that C. Moriama would play in this game, which will not count in the Oahu Service standings.

ROSS BREAKS RECORD FOR ONE-TWENTY SWIM IN DEL MONTE POOL

(Associated Press By U. S. Naval Communication Service)
DEL MONTE, California, June 24.—Swimming in a pool here Friday night, Norman Ross clipped a second from the record for 120 yards by doing the distance in one minute, seven and two-fifths seconds.

The former record for the 120 yards in a pool, five turns, one minute, eight and two-fifths seconds, was made by Perry McGillivray of the Illinois Athletic Club in the pool of that club at Chicago January 8, 1914. The four-turn record is one minute, ten seconds, held by C. M. Daniels, who set it in New York December 9, 1908.

SCOUT GUARD RELIEVED

The members of Troop VIII, Boy Scouts, will relieve those of Troop V (Queen's Own) of guard duty on the old Iroquois site, where most of the scout gardening is being done. So far there are only two gardens which have been weeded out and cultivated. New gardens are developing greatly with beans and potatoes growing luxuriantly in them.
